## Ficha Técnica – NARA® Bloc "Pescado" paquete de 20

Número de artículo: 110117

### Descripción:

NARA es una herramienta de monitoreo sintética de alta tecnología y no tóxica para ratas y ratones.

Está libre de alérgenos y no puede ser atacada por insectos (gorgojos de la harina, gorgojos dentados del grano, cucarachas, etc.). Es ideal para su uso en áreas húmedas. No se forma moho ni se descompone debido a la humedad. Las marcas de roído permiten diferenciar entre ratas y ratones.

### Aplicación:

Se recomienda colocarlo en estaciones de monitoreo. Puedes encontrar una selección de diferentes estaciones en nuestro sitio web: <https://www.futura-germany.com/product-solutions/stations/>

El NARA Bloc tiene una vida útil de al menos tres meses, dependiendo del lugar donde se utilice.

Apto para uso en interiores y exteriores.

### Especificaciones Técnicas

Tamaño del producto / dimensiones (cm):	14 x 7 x 22
Peso (gramos):	140
Dimensiones de un solo NARA (cm):	2 x 2 x 2,7
Peso de un solo NARA (gramos):	5,24
Color:	Naranja
Ingredientes:	Elastómero termoplástico (TPE), aroma, color
País de origen:	DE
Idioma de la etiqueta:	Español
Mercancía peligrosa:	No
Código EAN:	4260538380876
Código arancelario:	39269097

### Logistical information

Número de productos por caja:	12 bolsas
Tamaño de la caja (cm):	31,5 x 24 x 16,5
Peso total de la caja (kg):	1,536 (peso neto) / 1,74 (peso bruto)

**Bad news:** Residues of both rat and mouse poisons are found in fish, faxes, barn coats and other non-target species the world over. They are also a threat to food safety, to the unborn child and are a permanent and cumulative danger to mammals.

**Good news:** By switching to using NARA® you are changing all this. At the same time legislation and industry standards are following your lead.

So many congratulations! You are contributing to a greener, more professional world centered around IPV-based pest management. Also, thank you for working in professional pest control. You are taking care of human health and food security, both vital for our environment and planet. We are proud you use NARA® in your business. Thank you.

The world's renowned rodent experts, the largest service companies and industry associations believe that IPM means infrastructure improvements, hygiene, monitoring and trapping. The first vital first steps in pest management.

NARA® is seen as a pioneer with such organizations as **AIB, IFS, BRC** and **GMP**. They support the use of non-toxic rodent monitoring both inside and out, in all weather and in over 50 countries worldwide.

We're proud of this and you should be too. To some people this might be a small contribution to conserving our planet, but we believe that the reduced use of poisons and accompanying digitization of our sector makes a significant difference.

Did you realize? Most of the profits from NARA® sales are reinvested into the research and development of humane and digital solutions designed to help pest managers work more efficiently and environmentally?

Our belief is that in the near future our industry will focus on IPV, monitoring, approved humane traps, with digital cameras and sensors in every rodent box. We will move further and further away from poison. We don't live in the 1970s, but in the 2020s.
